

# FLIP 2 WIN SERVICE MANUAL

## NOTICE

The Operator of this equipment is responsible for maintaining customer safety at all time. Details set forth in this document must be followed at all times.

## FOREWORD

### SAFETY WARNING

- \* In order to use this game safely, be sure to read this Operator's Manual thoroughly before installation, adjustment or use of this game.
- \* Whenever the owner of this game or his authorized representative disassembles, install, adjusts, repairs or performs periodic maintenance on this game, the owner should ensure that the person performing the work has read the appropriate precautions and the relevant section of this manual prior starting work.
- \* In order to prevent accidents while this game is in operation, make sure that the safety notes described below are followed.
- \* This game is intended for indoor use only and should be for the purpose intended.
- \* Hyper Entertainment bears no responsibility for accidents, injury or damage resulting from unauthorized arranges to, or improper use of this game.

### SAFETY NOTES

- \* These safety notes are to be used throughout this manual. Anyone working on this machine should realize themselves with each of these notes and their meanings prior to installing, adjusting, repairing, performing periodic maintenance.

### Warning

WARNING: This denotes a hazard that could result in injury, death, or damage to the game.

### CAUTION

This denotes a hazard that could result in damage to the game. Do not proceed beyond a warning note until the indicated conditions are fully understood and conformed to.

## GENERAL SAFETY CONDITIONS

- \* Only operate this game after checking that the unit has been installed properly and in accordance with this manual.
- \* All warning notices must always be visible and in good condition. Warning labels, which are worn, or illegible, should be replaced immediately.
- \* Only qualified personnel should be perform the installation, adjustment, repair and/or periodic maintenance of this game.
- \* To prevent the possibility of electrical shock, the game MUST be plugged into AC power receptacle using an appropriate three prong GROUNDED plug.
- \* If at any time the AC power cord is damaged, it MUST be replaced immediately.

### BE CAREFUL OF THE IDENTIFIER IN THE MACHINE.

It is the warning of HIGH VOLTAGE.  
It means high voltage can cause an electric shock, turn off power before serving.

Be careful of the identifier in the machine.  
It is the warning of HIGH TEMPERATURE.  
It means high temperature can cause burning.

## INTRODUCTION OF THE MANUAL

- \* This owner's Manual is intended to provide detailed descriptions together with all the necessary information covering the general operation of electronic assemblies, servicing control, spare parts, etc. as regards the product.
- \* This manual is intended for the owner, personnel and managers in charge of operation of the product. Operate the product after carefully reading and sufficiently understanding the instructions. If the product fails to function satisfactorily, non-technical personnel should no circumstances touch the internal system.
- \* Non-technical personnel who do not have technical knowledge and expertise should refrain from performing such work that this manual requires the location's maintenance man or a serviceman to carry out, or work which is not explained in this manual. Failing to comply with this instruction can cause a severe accident such as electric shock.
- \* Ensure that parts replacement, servicing & inspections, and troubleshooting are performed by the locations maintenance man or the serviceman. It is instructed herein that particularly hazardous work should be performed by the serviceman who has technical expertise and

## SPECIFICATION

1 Rated power supply: AC220V±10% 50Hz or AC 110V±10% 60Hz;

(Note: As the actual voltage, please refer the label of the machine.)

2 Power Consumption: Min power consumption: 320 W

Max power consumption: 400 W

3 Dimensions: 1128 (W) X 1408 (L) X 1992 (H) (mm)

44.41 (W) X 55.43 (L) X 78.43 (H) (inch)

4 Weight: about 250 Kgs

About 551Pound

5 Environment Condition: Temperature(indoor): -10℃~+40

Humidity: ≤90%

Atmospheric pressure: 86Pa~106Pa

Note: Game parameters are subject change without notice.

# Package Content

BODY ASSEMBLY: 1unit

- \* Make sure that all the parts shown below are included in product package.
- \* If any parts are missing, contact your distributor.

## Playing Instruction

1. Insert coins;
2. Flip the Coin to spin the dice and win a Bonus display on panel.
3. The coins are pushed in to cabinet, you can get the relevant tickets.

Bonus explain;

3 MATCHING SYMBOL= MATCHING SYMBOL SCORE LED DISPLAY

For example; 3 Matching club = 20.

1 JOKER/WILD + 2 MATCHING SYMBOL = ANYTWO SCORE LED DISPLAY

For example; 1 Joker/Wild + 2 club = 10

DICE STOP ON " ? " = THREE DICE SPIN

Instruction:

*Please put 450 coins on playfild for proper operation!*

## Connecting the power cord and grounding

### Connecting Instruction

1. Insert the plug of power cord into the power socket of the machine.
2. Insert the power cord plug into a service outlet.

This machine's supply voltage is 110V 60Hz , or 220V 50Hz . For actual supply voltage, please refer the label of the machine.

Fuse specifications:

110V 60Hz use 110V 6A  $\Phi$ 5-20mm

220V 50Hz use 220V 3A  $\Phi$ 5-20mm

Power switch: Main game power

Ground terminal: Use to connect the ground cord.

Ground terminal

Power switch

Power box

Fuse socket

### WARNING

Power socket

Do not put heavy items on power cord

Do not touch the power plug with a wet hand

Do not draw or twist the cord.

Do not place the cord where the player can easy to touch or kick..

Run this machine with the correct power configuration.

This product is an indoor game machine. Do not install it outside.

Even indoors, Avoid installing in places mentioned below so as not to cause a fire, electric shock, injury and or malfunctioning.

Place subject to rain or water leakage, or places subject to high humidity in the proximity of an indoor swimming pool and or shower, etc.

Place subject to direct sunlight, or places subject to high temperatures in the proximity of heating units, etc.

Places filled with inflammable gas or vicinity of highly inflammable/volatile chemicals or hazardous matter.

Dusty places.

Sloped surfaces.

Places subject to any type of violent impact.

Vicinity of anti-disaster facilities such as fire exits and fire extinguishers.

The operating (ambient) temperature range is from -10°C to +40°C.

#### LIMITATIONS OF USAGE REQUIREMENTS

Be sure to check the Electrical Specifications. Ensure that this product is compatible with the location's power supply, voltage and frequency requirement. A plate describing Electrical Specifications is attached to the product. Non-compliance with the Electrical Specifications can cause a fire and electric shock.

Putting many loads on one electrical outlet can cause generation of heat and a fire resulting from overload.

Location to avoid installing

**WARNING:** Do not leave the machine on a slope, otherwise the machine may topple or cause unforeseen accidents.

Playing zone:

Maintenance Zone

**This machine requires space for**

Playing Zone

The machine

playing the game (play zone) and for

maintenance (maintenance zone) as

shown below. Be sure to leave enough

About 300mm About 500mm

space when installing the machine.

### Game leveling

Install this machine on a flat surface. Adjust levelers to lift casters off the ground and level game.

Make sure that the machine is level with the floor. If the machine is not level medals may not be play well.

Level adjuster Caster

5mm

Move Fix

## Movement

### WARNING:

Be careful not to damage the machine during transport.

Do not give a shock to the molded parts. These parts are fragile.

Be careful not to give a shock to the machine when bringing it down from a higher level.

Unplug game before moving.

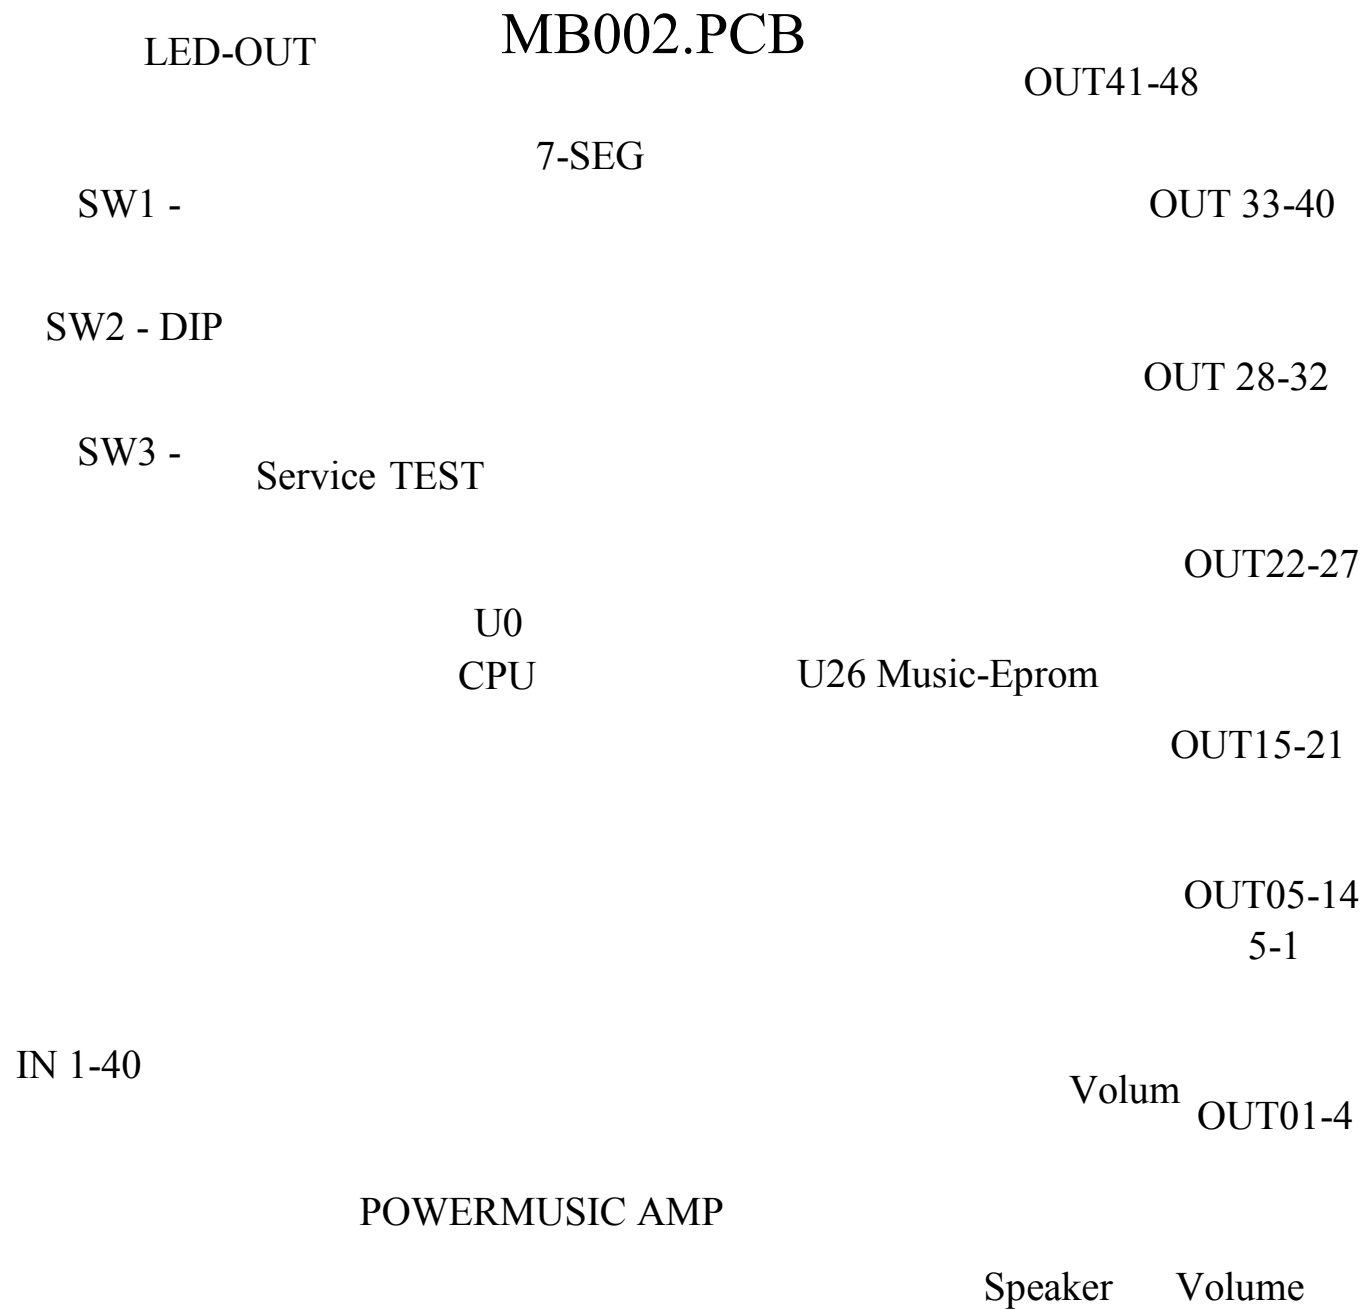

Do not lay game on side during transport.

Before move, please follow the below steps.

1. Turn off the power switch.
2. Unplug the power.
3. Adjust the levels in high before moving it.

## Game Adjustment

### \* The Main Board

## TESTING OF MAIN BOARD

Press the "TEST" button (in the board) for 2 seconds enter "Test Mode"  
(Press 1 time again, Quit the "TEST MODE")

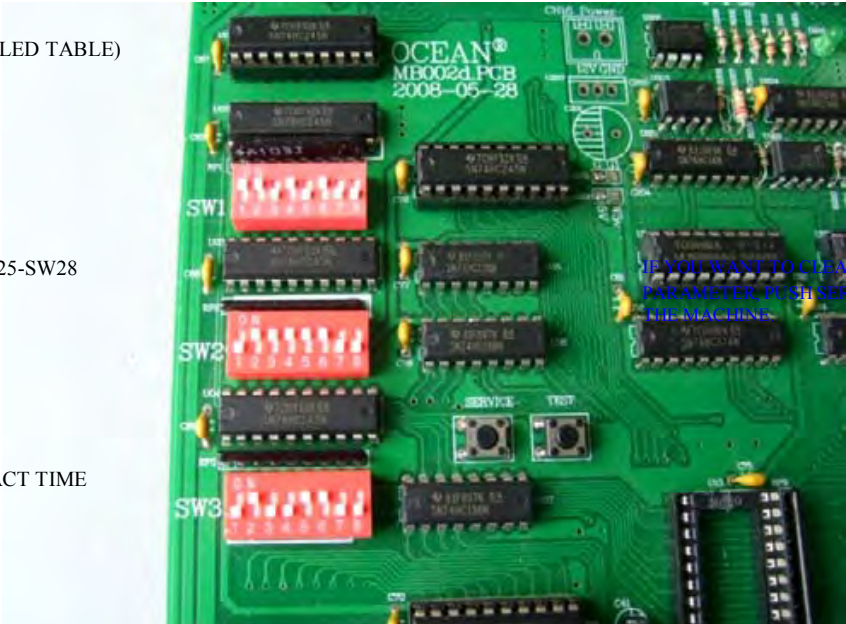

1. 7\_Seg display "t01" 3 Seconds, stop at "8.7.6.5.4.3.2.1."& "87654321".  
(Test 7\_Seg display)
2. Press the "SERVICE" button 1 time, 7\_Seg display "t02" 3 seconds,  
stop at "22222xxx/22222xxx", (Test SW DIP 1-3 State),  
the Dip SW1-SW3 State Display at "xxx";
3. Press the "SERVICE" button 1 time, 7\_Seg display "t03" 3 seconds,  
stop at "3333xxxx/3333xxxx", (Test INPUT),  
the input which is on will be display at <1>1-2,<1>3-4,<2>1-2,<2>3-4
4. Press the "SERVICE" button 1 time, 7\_Seg display "t04" 3 seconds,  
stop at "4444xxxx/4444xxxx", (Test OUTPUT-1),  
the input which is on will be display at <1>1-2,<1>3-4,<2>1-2,<2>3-4  
and the OUTPUT will ON when the INPUT is on;
5. Press the "SERVICE" button 1 time, 7\_Seg display "t05" 3 seconds,  
stop at "55555xx/55555555", (Test OUTPUT-2),  
the output 1-48 will ON one by one;and display the output number at <1>1-2
6. Press the "SERVICE" button 1 time, 7\_Seg display "t06" 3 seconds,  
stop at "666666xx/66666666", (Test Sound),  
Press the I02, the sound will be play, and the Number will be display at <1>1-2
7. Press the "TEST" again when in the "TEST MODE",Quit the "TEST Mode".
- 8.If you want to clear memory, Press "SERVICE" when power on the machine.
