## 2. [BarBer Cut prize game machine](#)

Short description:

The BarBerCut Lite game concept is simple : Players use the two control buttons to try to make the automated scissors cut the string that holds the prize of their choice, which releases the prize. Anyone can understand and play this game on their first try, making it a hit for all ages !

When players notice a cut string hanging in the machine - symbolizing a prize that another person has already won, and they feel compelled to win a prize of their own. That instantly makes this game more addicting than any other prize redemption arcade game on the market today, and those repeat players will land right inside your cash box !

Barber Cut Lite glows white to attract customers, and boasts high-value prizes of virtually any size. Prizes can even be as small as a CD or gift card! Operators can get creative with their prize mix and hang them on their own with ease. This game is unlike any prize redemption game in history. It outperforms competitors week after week, and it is sure to be a huge success at your location

## 5. Snork Suck Candy prize game machine

Play instruction:

1. Insert coin[s] to start the game. The adjustable timed round begins and is displayed counting down.
2. Use the 4-way joystick to position Snork's nose left or right, over the desired candy and/or prize you wish to capture. By moving the joystick forward, you will control Snork's nose in the downward direction until it reaches the surface of the candy and/or prizes as they slowly revolve around the center prize chute. Pulling the joystick back after capturing your prize will lift Snork's nose out of the prize bin. Then move the joystick left or right to move the captured prize over and above the center prize chute. You can now press the DROP button, (which turns off the vacuum system temporarily), and continue to hold it down to drop your prize- or, you can simply let go of the joystick at this point and at the end of the timed round, Snork will automatically return to the center and drop any captured candy and/or prizes into the prize chute for you!
3. The game is Operator adjustable to either end the game at any candy and/or prize detected in the prize chute- or, you may have time left and return to try and capture even more candy and/or prizes before the time runs out!
4. When the time runs out, the game is over.
5. An alternate Nose tip "A" and "B" ["A" is installed at the factory] is included with the game and allows Operators to easily control the number of candy pieces and/or prizes able to be picked up at any time by having more or less holes for the vacuum to pass through.
6. Wrapped candy, toy capsules [up to 2.5" in diameter], and many small toys may be operated separately or combined to offer a wide range of choices to Players.
7. Additionally, an Operator adjustable setting within the Menu automatically lifts Snork's nose out of the prize bin half way if the nose is held down too long to prevent piling up of candy and/or prizes and to reduce the risk of damage.
